Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: In comparing the claims of the current invention to the closest prior art, Valero-Cuevas et al. (US 6,000,193), the application is found to be allowable. The claims of the current application contain the elements of a left and right outer form that is semi-circular in shape and oriented about a pivot axis located on the centerline. Valero-Cuevas et al. does not disclose or teach the limitations of orientating a pivot form to the left and right of a center-point of a longitudinal member, and each pivot form being centered about a pivot axis on the centerline of the longitudinal member. For these reason the application is found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment
